About Me

A passionate web developer from India and a Cyber Security Enthusiast. I'm always eager to explore new subjects and work in a challenging atmosphere so as to have a steep and continuous learning curve

Experience

TeamBi0s - Nov 2020 - March 2022

CTF Player - Binary Exploitation

- Contributed to the team's success in many well-renowned CTFs in the world
- Created and hosted Challenges for our annual CTF competition InCTF juniors and InCTF Nationals.
- Completed the famous malloc labs with the accuracy of 96%
- Attended BlackHat Conference USA in 2021 with a student scholarship of worth 3lacs.
- Challenges Authored

GameofPWNs - A pwn challenge for InCTF juniors based on ret2libc concept

MIPSUnderstanding - A Ret2Shellcode challenge but in MIPS architecture to increase the difficulty.

BreakingBOF - A simple buffer overflow challenge for InCTF juniors.

CallmeCanary - A canary leak challenge for the finalists of InCTF juniors.

Full Stack Web Developer amFOSS - April 2022 - Present

Projects

- **amFOSS Club Entry Management System**

A Full Stack Project to automate the entry process of new recruits in our club using NextJs framework, Django backend, and GraphQL APIs.

- **NightKing-CMS**

NightKing-CMS is a real-world CMS like WordPress using React NextJs Node MERN Stack with SEO implementation with ANT Design to build the UI.

- **Other Projects**

VitaraLearn - A 5 video DSA certification course page (fully responsive) built on ReactJS with videoJs libraries

To-Do-List - An React Application to maintain a task-list

Education

- Completed my 10th and 12th ICSE/ISC board from DBMS English School with a %age of 94.2 and 80 respectively
- Currently pursuing B-Tech in Electrical and Computer Engineering @ Amrita University with a CGPA - 9.21
